

WHICH KIND OF NEWS FROM AND ABOUT AFRICA DO WE NEED IN AUSTRIA?

RADIO AFRIKA TV celebrates 25 years on March 21, 2022

For our 25th anniversary, we at Radio Afrika TV cordially invite you to an online panel discussion with experts. We discuss questions about the value of qualitative media reports from Africa in Austria. The event will be broadcast live on Okto TV.

How satisfied are you with the representation of the African diaspora in the Austrian media? Which kind of news from and about Africa do we need in Austria?

Media coverage from Africa has been similar in Europe for decades. All of us are familiar with the one-dimensional reports. However, the African continent and its diaspora is more complex than conflicts, wars and disease. Particularly the West is developing a greater interest in Africa. Austria is also strengthening its relations with African countries, politically, economically and culturally. Therefore, media coverage from Africa can also be improved on in Austria. Especially radio and television reports need voices and images directly from Africa or from Africans here in Austria and not via isolated international agencies or social media. This is where we come in.

We at Radio Afrika TV would like to invite you to the panel discussion and the digital launch of the media agency "APEA". The "Africa Press Express Agency" should become an effective mean to diversify the narrative of the Austrian media landscape. With "APEA" we want to promote qualitative media reports from and about Africa that correspond to today's information age.
